This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

**Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

# PREFACE.

TO facilitate the practice of buſineſs, is an object worthy of particular attention in a Commercial State. Many Tables of Intereſt, conſtructed on different models, have been offered to the Public to advance that end. But moſt of them are erroneous in calculation, and formed on a plan ſo confined, that when the intereſt of any ſum for more than 96 or 100 days is wanted, different pages muſt be reſorted to: Hence accuracy and expedition, the chief advantages which ought to accrue from books of this kind, are by no means attained.

To remedy theſe inconveniencies, and to furniſh greater aid to merchants and men of buſineſs, was the deſign of this publication. The following Tables, *as now* offered to the Public, are the reſult of ſuch improvements as the experience of the Author, for upwards of twenty years, in this and ſimilar publications, has enabled him to make: and he aſſures the Public, that equal attention has been paid to this Edition as to any of the former five, all of which have been found, in point of Calculation, as well as accuracy of Printing, to be perfectly correct.

*Directions*

*Directions for finding out, by the following Tables, the exact Number of Days, from any Day in any one Month, to any Day in any other Month, which is easier and more exact than by any other Table extant.*

If you would know the number of days from the 15th March to the 4th October, look for the 4th October, at the bottom of the page of any of the rates, and you will find at the top of the same column with 4th October, that that day is the 277th day of the year; from this number subtract the number of days from the 1st of January to the 15th of March, which is 74, and the remainder being 203, is the exact number of days wanted. But in leap-year one day more is to be added, if the 29th February is included in the number required.
